Final Numbers 2017

December  
2018

Dear colleagues

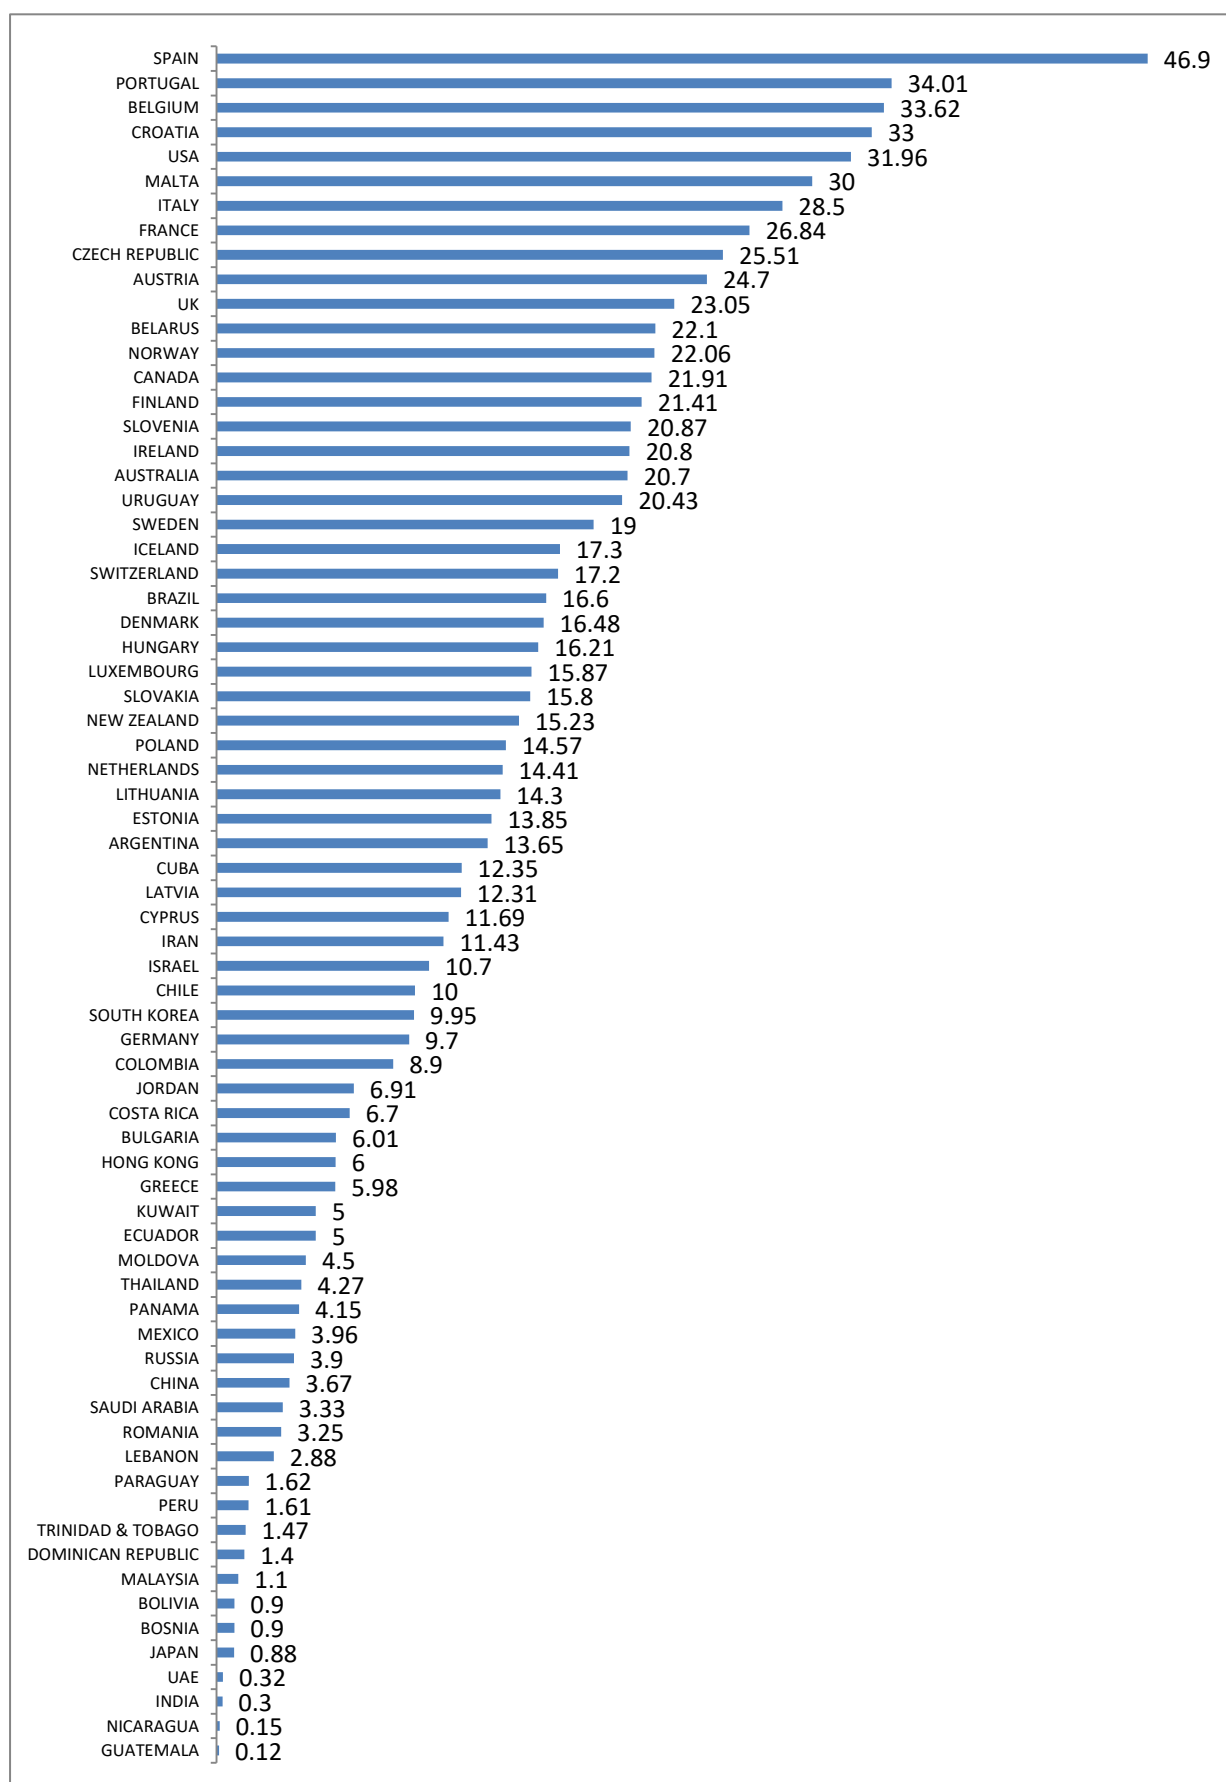

On behalf of all **IRODaT** staff, we are glad to present the 2017 final numbers in organ donation and transplantation.

IRODaT's mission is to support the healthcare professionals, transplant specialists, researchers and general community to have access to verified and validated information.

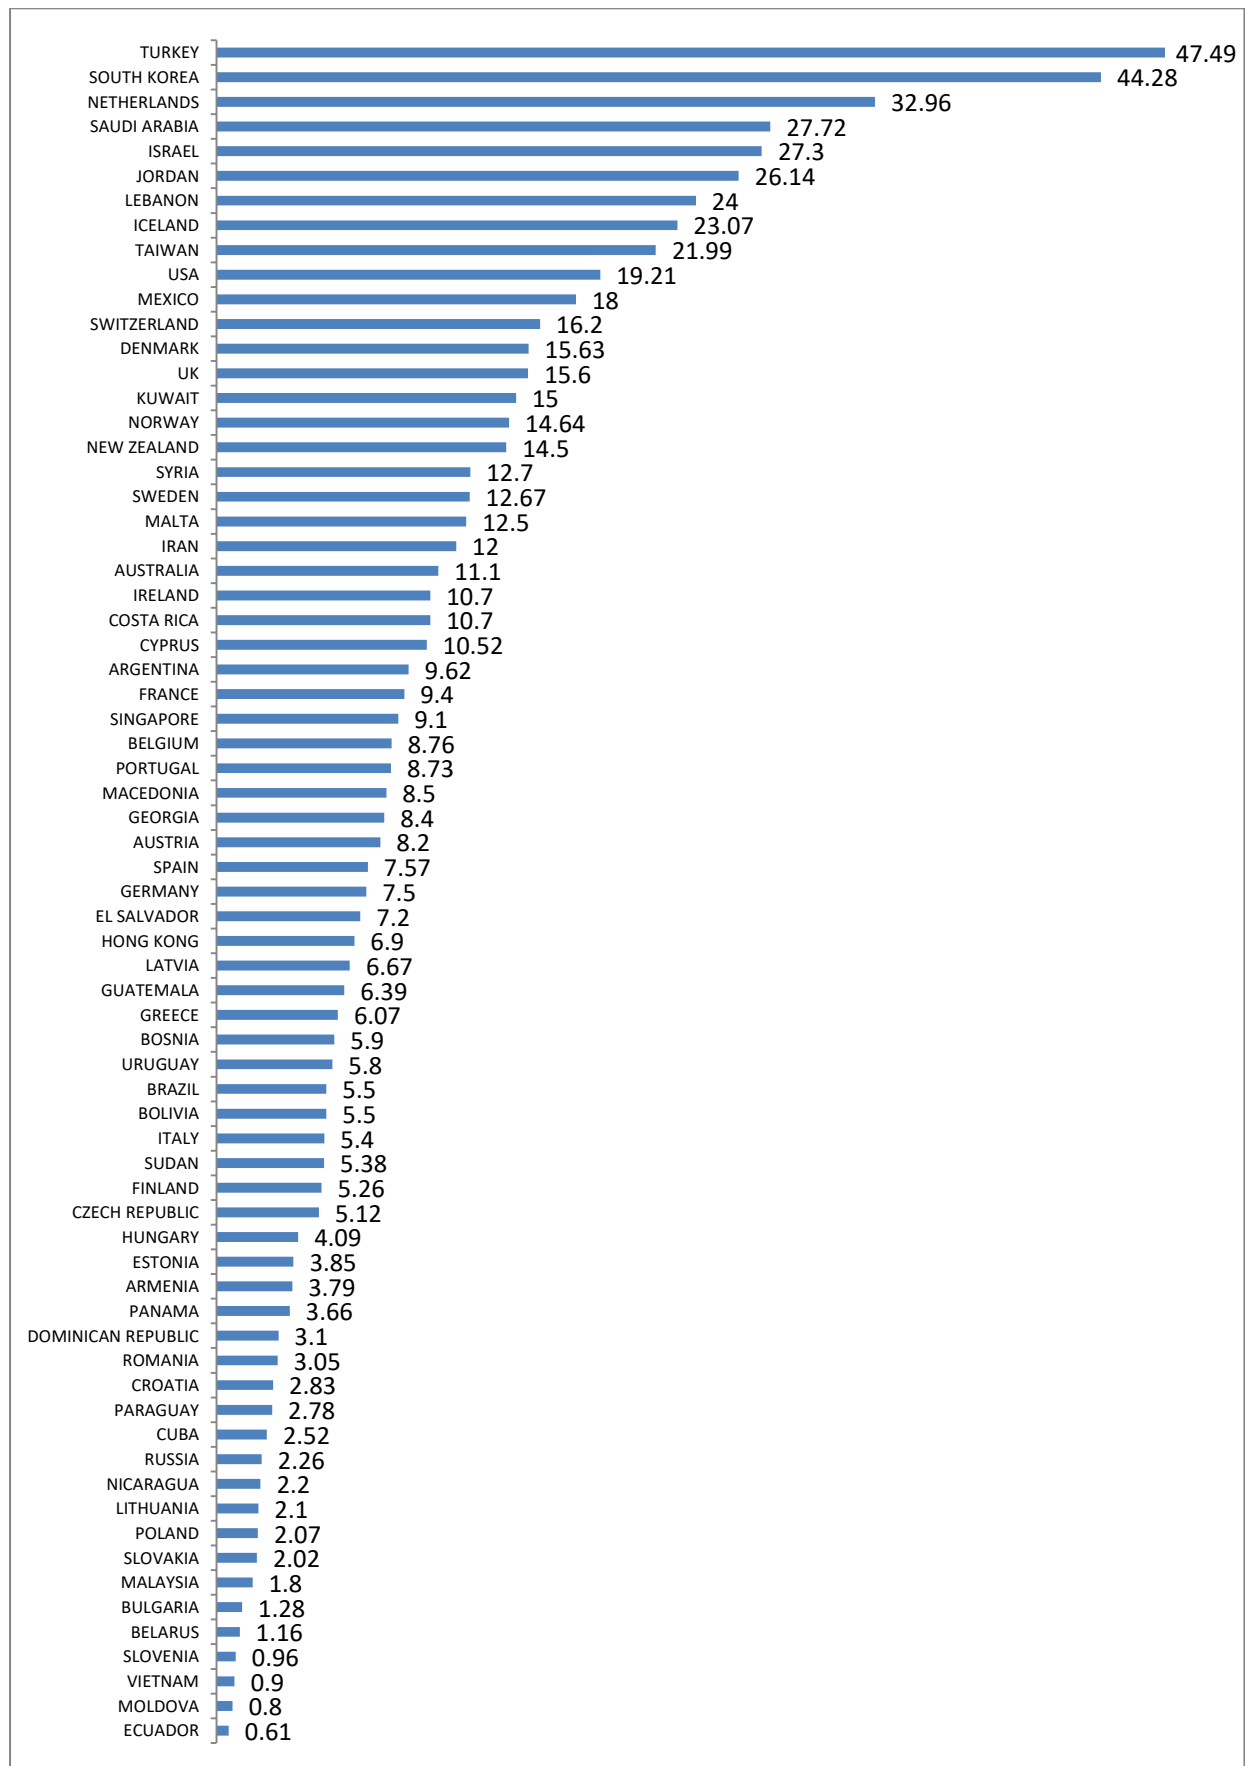

We invite you to visit the IRODaT website, [www.irodat.org](http://www.irodat.org), where you will find information from other countries and other news regarding international organ donation and transplantation.

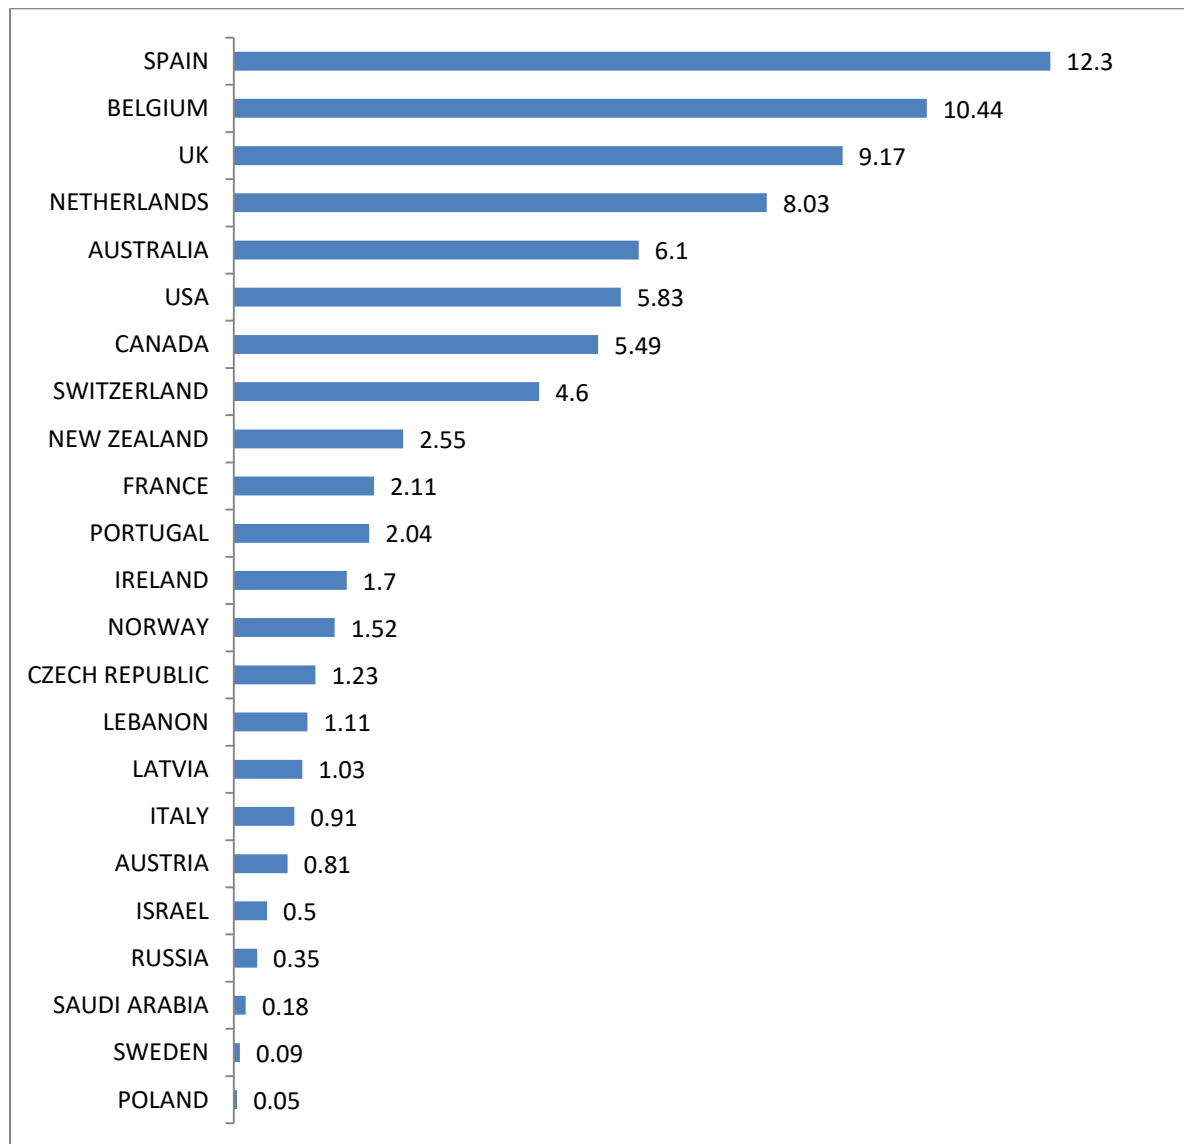

Once again, we would like to thank you for all your efforts to develop the **IRODaT** network, and encourage donation and transplantation activity in your own countries.

***IRODaT Team***

**WORLDWIDE LIVING ORGAN DONORS 2017 (pmp)**

**WORLDWIDE ACTUAL DONORS AFTER CIRCULATORY DEATH 2017 (pmp)**

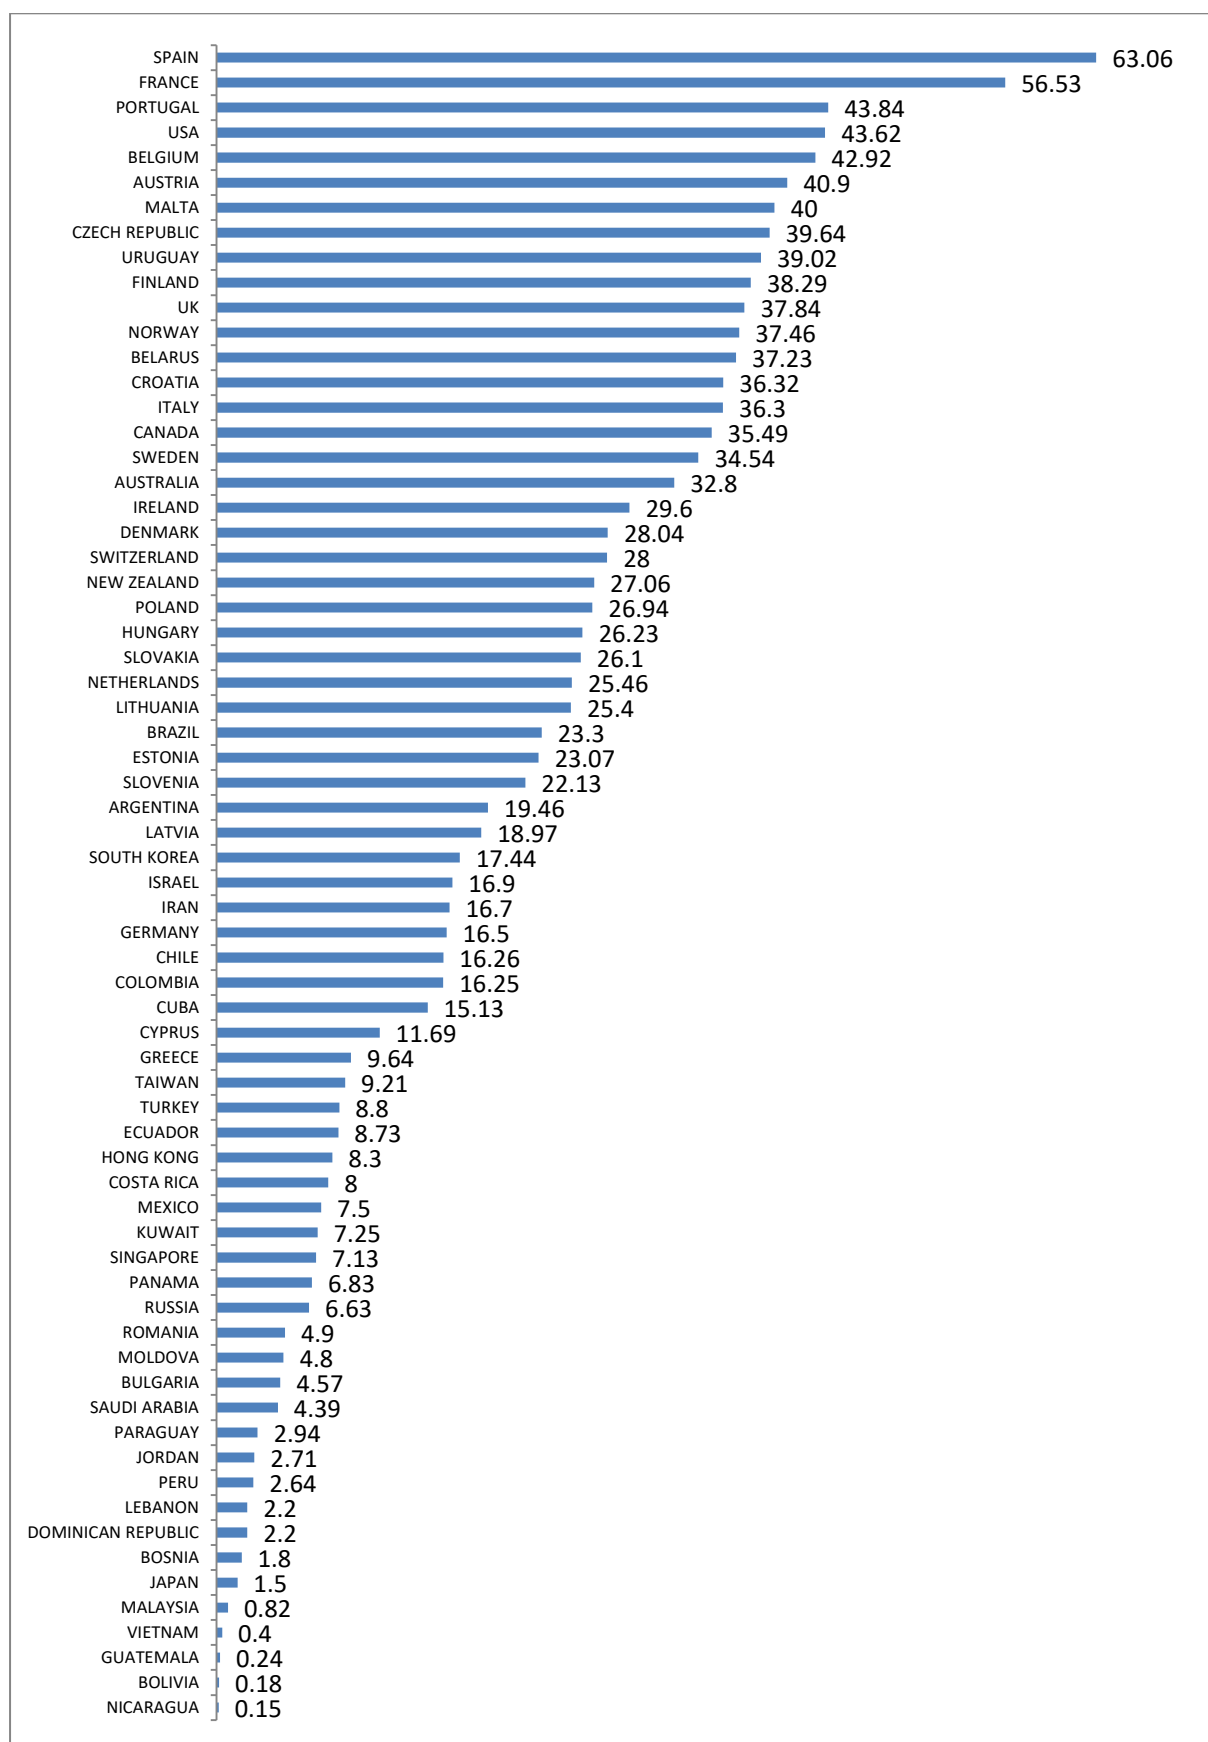

## **2. TRANSPLANTATION ACTIVITY**

IRODaT presents -in this section- the worldwide transplantation activity of 2017. It is divided into 7 different figures, each one representing a different organ transplant activity (kidney, liver, heart, lung and pancreas).

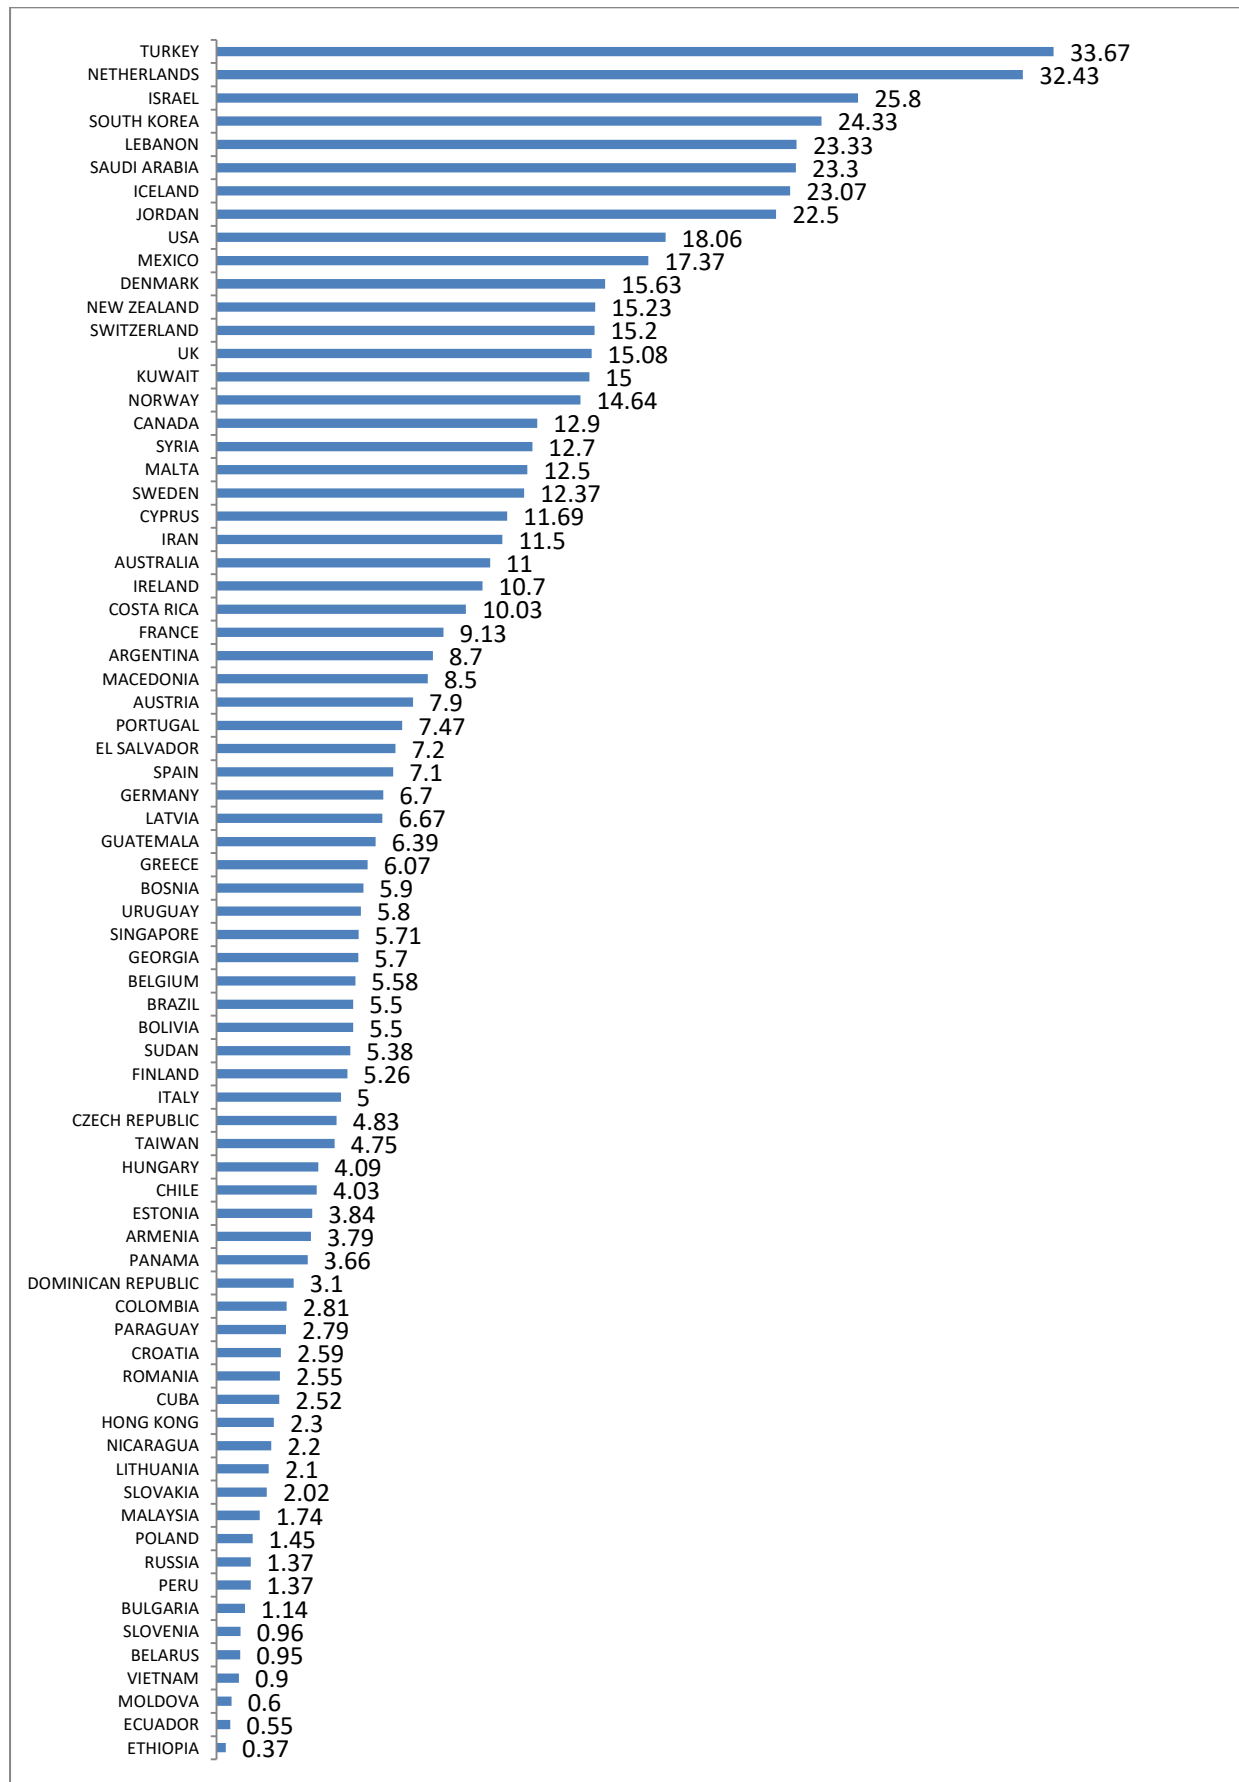

Kidney and liver transplant activity is divided into two figures; one for transplant from deceased donors and the other for transplant from living donors.

All graphs are represented in pmp, and the figures regarding transplant from deceased donors' numbers include all combinations.

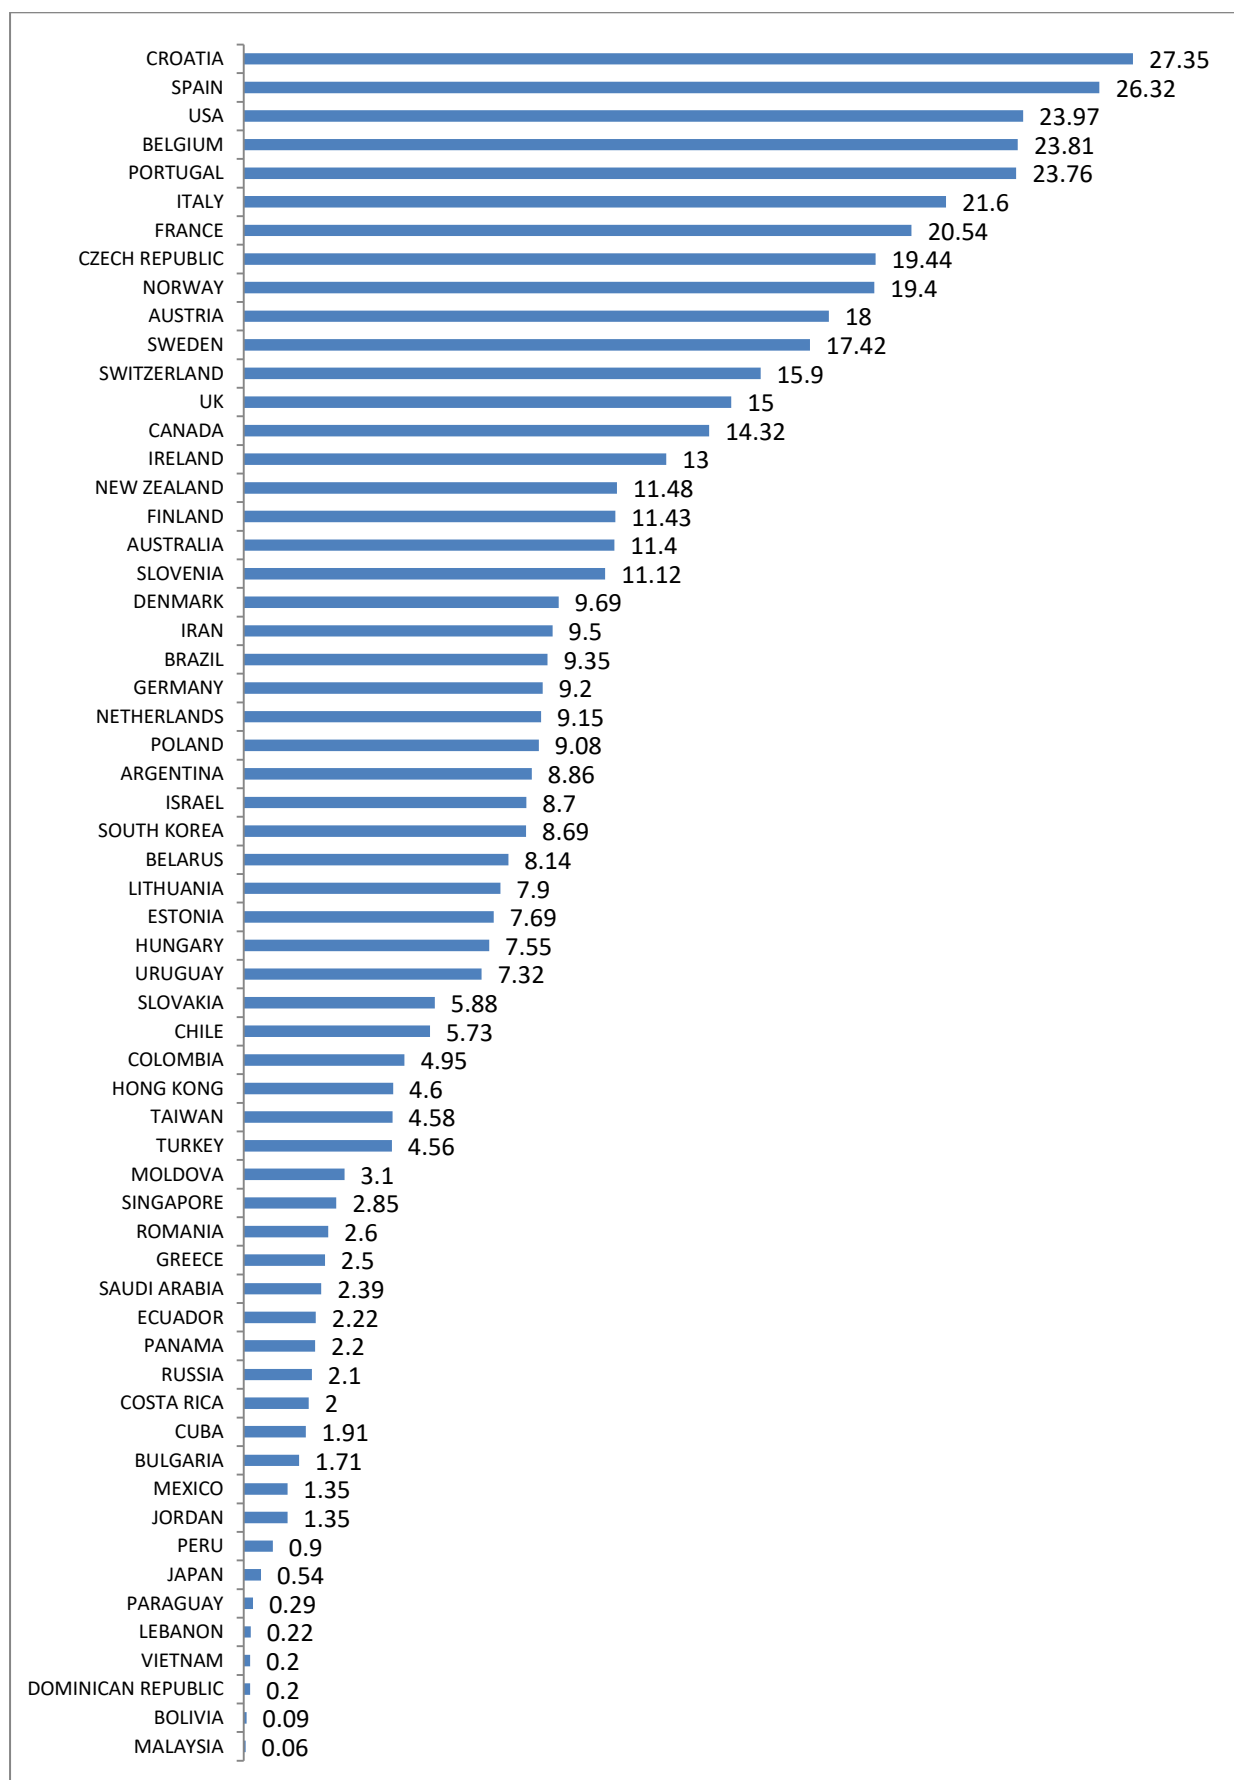

We would like to remind you that all this information and figures, as well as this [Newsletter](#) is available on the IRODaT website [www.irodat.org](http://www.irodat.org)
